## **Greenbrier Reports Second Quarter Results**

*Diluted EPS of \$0.38 on revenue of \$683 million*

*Orders for 8,500 new railcars valued at \$930 million creates largest new railcar backlog in six years*

*Fleet utilization increases to 98%*

**Lake Oswego, Oregon, April 6, 2022** – The Greenbrier Companies, Inc. (NYSE: GBX) (“Greenbrier”), a leading international supplier of equipment and services to global freight transportation markets, today reported financial results for its second fiscal quarter ended February 28, 2022.

### **Second Quarter Highlights**

- New railcar orders for 8,500 units valued at \$930 million and deliveries of 4,800 units resulted in a 1.8x book-to-bill.
- Diversified new railcar backlog as of February 28, 2022 was 32,100 units with a value of \$3.6 billion.
- Railcar refurbishment and other transportation equipment backlog of 3,200 units valued at \$180 million for delivery during fiscal 2022 and 2023 reflects Greenbrier’s strong engineering and innovation capabilities. This activity is not included in new railcar backlog.
- Increased lease fleet utilization to 98%.
- Regular lease fleet optimization and monetization generated \$120 million of proceeds and \$25 million of gains.
- Net earnings attributable to Greenbrier for the quarter were \$13 million, or \$0.38 per diluted share, on revenue of \$683 million.
- Quarter end liquidity increased to \$804 million, including \$587 million in cash and \$217 million of available borrowing capacity.
- GBX Leasing completed the issuance of \$323 million of asset-backed notes with a blended rate of 2.9%. The notes have a weighted average life of six years.
- Board declared a quarterly dividend of \$0.27 per share, payable on May 10, 2022 to shareholders of record as of April 19, 2022 representing Greenbrier’s 32<sup>nd</sup> consecutive quarterly dividend.

Lorie Tekorius, President and CEO, commented, "Greenbrier’s commercial momentum continued during the second fiscal quarter of 2022, as we achieved our fifth consecutive quarter with a book-to-bill ratio exceeding 1.0x on orders approaching \$1 billion. Greenbrier ended the quarter with backlog at levels last seen six years ago. Financial results in the quarter reflect our unique business model and the opportunities our lease fleet provides to further enhance our performance.

This matters, particularly when we face evolving pandemic-related challenges, like intermittent labor shortages. Securing and receiving inputs for our products has the full attention of our global sourcing team. We are successfully navigating a supply chain experiencing higher raw material costs and, frequently, more expensive logistics activity. Robust order activity, strong liquidity and the evolution of our leasing business continues to strengthen Greenbrier, expanding our market position and earnings potential as we manage escalating costs and other operating strains."

William A. Furman, Executive Chairman, added, "The tragedy in Ukraine and its impact on commodity prices are likely to have far-reaching consequences to the global railcar industry, including growth in rail freight in many sectors. We are closely watching global commodity markets, including crude oil, grain and fertilizers, that are traditionally leading indicators for expansion in freight rail loadings. Now operating on four continents, Greenbrier is continuously assessing the effect of geopolitical developments, and actively working to support the safety and security of our employees and the cybersecurity of our information and data infrastructure. Since 2020, we have experienced some of the most daunting operating conditions in Greenbrier's history. We have not only survived, but we have thrived in this changing environment. Our industry-leading manufacturing footprint, our growing services business and our established capabilities allow us to meet these challenges directly, bringing customers the solutions that meet their needs."

### **Business Update & Outlook**

Greenbrier continues to meet the challenges of emerging COVID variants while balancing economic, supply chain and labor volatility. Based on current business trends and production schedules for fiscal 2022, Greenbrier expects:

- Deliveries of 17,500 – 19,500 units including approximately 1,500 units in Greenbrier-Maxion (Brazil).
- Selling & administrative expense to be \$200 - \$210 million.
- Capital expenditures of \$275 million in Leasing & Management Services, \$55 million in Manufacturing and \$10 million in Maintenance Services. Net of proceeds of equipment sales of approximately \$150 million, capital expenditures in Leasing & Management Services will be \$125 million.

**Financial Summary**

	Q2 FY22	Q1 FY22	Sequential Comparison – Main Drivers
Revenue	\$682.8M	\$550.7M	19% increase in deliveries including stronger syndication activity
Gross margin	8.0%	8.6%	Impact of production ramping inefficiencies, Omicron variant and mitigation of supply chain disruptions
Selling and administrative	\$54.7M	\$44.3M	Increased employee costs, consulting, travel and legal expense from higher business activity levels
Net gain on disposition of equipment	\$25.1M	\$8.5M	Increased gains from regular fleet optimization and monetization
EBITDA	\$51.7M	\$42.2M	Increased operating earnings reflecting higher revenue across all business units; See reconciliation on page 10
Net loss attributable to noncontrolling interest	\$1.6M	\$5.2M	Partners' share of consolidated JV's operating results
Net earnings attributable to Greenbrier	\$12.8M	\$10.8M	Improved operating earnings partially offset by more typical earnings from unconsolidated affiliates
Diluted EPS	\$0.38	\$0.32	

**Segment Summary**

	Q2 FY22	Q1 FY22	Sequential Comparison – Main Drivers
<b>Manufacturing</b>			
Revenue	\$555.7M	\$452.5M	Increased deliveries primarily in North America
Gross margin	3.7%	6.8%	Inefficiencies from ramping production, impact of the Omicron variant and increased expense to mitigate supply chain disruptions
Operating margin <sup>(1)</sup>	0.3%	2.7%	
Deliveries <sup>(2)</sup>	4,400	3,700	
<b>Maintenance Services</b>			
Revenue	\$86.6M	\$72.4M	Increased volumes due to winter seasonality
Gross margin	5.7%	1.7%	Improved throughput despite labor challenges
Operating margin <sup>(1)</sup>	3.3%	(1.5%)	
<b>Leasing &amp; Management Services (including GBX Leasing)</b>			
Revenue	\$40.5	\$25.8M	Primarily increased syndication activity
Gross margin	72.1%	59.9%	
Operating margin <sup>(1)(3)</sup>	117.5%	66.5%	Benefited from timing of gains from fleet optimization
Fleet utilization	97.9%	97.1%	

<sup>(1)</sup> See supplemental segment information on page 9 for additional information.

<sup>(2)</sup> Excludes Brazil deliveries which are not consolidated into Manufacturing revenue and margins.

<sup>(3)</sup> Includes Net loss (gain) on disposition of equipment, which is excluded from gross margin.

**Conference Call**

Greenbrier will host a teleconference to discuss its second quarter of 2022 results. In conjunction with this news release, Greenbrier has posted a supplemental earnings presentation to our website. Teleconference details are as follows:

- April 6, 2022
- 8:00 a.m. Pacific Daylight Time
- Phone: 1-888-317-6003 (Toll Free) 1-412-317-6061 (International), Entry Number “8138307”
- Real-time Audio Access: (“Newsroom” at <http://www.gbrx.com>)

Please access the site 10-15 minutes prior to the start time.

**About Greenbrier**

Greenbrier, headquartered in Lake Oswego, Oregon, is a leading international supplier of equipment and services to global freight transportation markets. Through its wholly-owned subsidiaries and joint ventures, Greenbrier designs, builds and markets freight railcars and marine barges in North America, Europe and Brazil. We are a leading provider of freight railcar wheel services, parts, maintenance and retrofitting services in North America through our rail services business unit. Greenbrier manages 431,000 railcars and offers railcar management, regulatory compliance services and leasing services to railroads and other railcars owners in North America. GBX Leasing (GBXL) is a special purpose subsidiary that owns and manages a portfolio of leased railcars that originate primarily from Greenbrier’s manufacturing operations. GBXL and Greenbrier own a lease fleet of 11,000 railcars. Learn more about Greenbrier at [www.gbrx.com](http://www.gbrx.com).

## THE GREENBRIER COMPANIES, INC.

## SUPPLEMENTAL LEASING INFORMATION

*(In millions, except owned and managed fleet, unaudited)*

GBX Leasing (GBXL) was formed in April 2021 as a joint venture with The Longwood Group to own and manage a portfolio of leased railcars primarily built by Greenbrier. Greenbrier owns approximately 95% of GBXL and consolidates it in Greenbrier's financial statements in the Leasing & Management Services segment. GBXL provides an additional "go to market" element to Greenbrier's Commercial strategy of direct sales, partnerships with operating leasing companies, and origination of leases for syndication partners as well as providing a platform for further growth at scale. GBXL will produce strong tax-advantaged cash flows. The goal is to add at least \$200 million in railcar assets annually at about 3:1 debt to equity (or 75%) based on the fair market value of assets with a five-year target of \$1 billion of assets. GBX Leasing observes Greenbrier's established portfolio standards including investing in strong credits with a diverse equipment mix and staggered maturity ladders.

GBX Leasing's fleet value was nearly \$400 million as of February 28, 2022 and Greenbrier expects to continue to grow GBX Leasing in the second half of fiscal 2022, utilizing the \$350 million non-recourse railcar warehouse facility. In Q2, GBX Leasing issued \$323 million of asset-backed ("ABS") notes with a blended rate of 2.9% and a weighted average life of six years. Subsequent to quarter end, Greenbrier entered into an additional interest rate swap agreement to fix the remaining floating portion of the Leasing non-recourse term loan. With this activity, the weighted average cost of debt for Greenbrier Leasing and GBX Leasing is 3.4%. Investing in leasing assets reduces Greenbrier's Manufacturing revenue and margin in the short-term but provides meaningful tax benefits, longer-term earnings and cash flow stability.

<sup>(1)</sup> Quarterly amounts may not total to the year-to-date amount as each period is calculated discretely.

“SAFE HARBOR” STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995: This press release may contain forward-looking statements, including any statements that are not purely statements of historical fact. Greenbrier uses words, and variations of words, such as “believe”, “build”, “continue,” “expect,” “goal,” “looking forward”, “outlook,” “position,” “reduce,” “will,” and similar expressions to identify forward-looking statements. These forward-looking statements include, without limitation, statements about backlog and other orders, leasing performance, financing, future liquidity, cash flow, our ability to grow market share and deliver future value to our shareholders, tax treatment, and other information regarding future performance and strategies and appear throughout this press release including in the headlines and the sections titled “Second Quarter Highlights,” a “Business Update & Outlook,” and “Supplemental Leasing Information.” These forward-looking statements are not guarantees of future performance and are subject to certain risks and uncertainties that could cause actual results to differ materially from the results contemplated by the forward-looking statements. Factors that might cause such a difference include, but are not limited to, the following: We are unable to predict when, how, or with what magnitude COVID-19, variants thereof, governmental reaction thereto, and related economic disruptions (including, among other factors, supply disruptions, inflation, and increases in interest rates) will negatively impact our business. General inflation (including rising energy prices, interest rates and wages and other escalators), currency volatility and policy interventions in reaction to such events could have negative impacts on our business by increasing our operating and borrowing costs as well as decreasing the capital available for our customers to purchase our goods and services, among other factors. Our business may be negatively impacted as a result of armed conflict in Ukraine and related events. The risks to our business that may emerge include, among others, transportation disruptions in Europe, heightened inflation, cyber disruptions or attacks, higher manufacturing and borrowing costs, disruptions in supply chains and availability of raw materials, interruptions in manufacturing operations and disruptions in credit markets. Our backlog of railcar units and marine vessels and other orders not included in backlog are not necessarily indicative of future results of operations. Certain orders in backlog are subject to customary documentation which may not occur. More information on potential factors that could cause our results to differ from our forward-looking statements is included in the Company’s filings with the SEC, including in the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” sections of the Company’s most recently filed periodic report on Form 10-K and subsequent reports on 10-Q. Except as otherwise required by law, the Company assumes no obligation to update any forward-looking statements or information, which speak as of their respective dates. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management’s opinions only as of the date hereof.

### **Adjusted Financial Metric Definitions**

EBITDA is not a financial measure under generally accepted accounting principles (GAAP). This metric is a performance measurement tool used by rail supply companies and Greenbrier. You should not consider this metric in isolation or as a substitute for other financial statement data determined in accordance with GAAP. In addition, because this metric is not a measure of financial performance under GAAP and is susceptible to varying calculations, the measure presented may differ from and may not be comparable to similarly titled measures used by other companies.

We define EBITDA as Net earnings (loss) before Interest and foreign exchange, Income tax benefit (expense), Depreciation and amortization and Net loss on extinguishment of debt. We believe the presentation of EBITDA provides useful information as it excludes the impact of financing, foreign exchange, income taxes and the accounting effects of capital spending. These items may vary for different companies for reasons unrelated to the overall operating performance of a company’s core business. We believe this assists in comparing our performance across reporting periods.
